CNC Rapid Ltd. is a dynamically growing company, well acknowledged in the field of machinery industry both domestically and abroad. Its main profile is the manufacturing of high-precision, machine-cut equipments and machinery parts of high complexity and quality.

Before: Challenges and Opportunities
- Existing system was developed by only one company
- Majority of our partners are also used SAP
- SAP Business One was able to realize our business process without development

Why SAP and Partner
- Obtaining an integrated system
- Being able to flexibly handle changes in purchase orders initiated by our buyers, both in raw material management and production timing
- Being able to monitor production data in near-real time
- We can assign different permission to different tasks and users

After: Value-Driven Results
- Easy to use end user interface
- Sophisticated security management
- Instant access to different data sources,
- Up-to-date data processing and information
- Faster administration process

Featured Partner:
acterra international

"SAP Business One is able to handle the whole process right from the purchase order, including procurement, production design, calculation of labour costs, inventory movements, deliveries and the invoicing process.."

Peter Szórádi, Development and sustainability manager, CNC Rapid Kft.
